(May 1, 2022) — Finally, we will shortly see the hard evidence that, in fact and reality – as opposed to the concocted fantasy that the 2020 general election was “the most fair and secure in history” – that the 2020 election was rigged and, beyond any reasonable doubt..., stolen. Hijacked. Corrupted.

And the verbal counter-ruse from the Democrats that it was “fair” and the “most secure ever” immediately forces recollection of the advice given by German Reich Führer Adolph Hitler in 1925 and included in “[Mein Kampf](#)” (“My Struggle”). There, Hitler counseled that, if one decides to tell a lie, it should be a “colossal” one repeated frequently until people come to believe it as being true, since a small lie is less likely to be believed and because no one would believe that the perpetrator of the lie “could have the impudence to distort the truth so infamously.”

Hitler never counted on the proud and infamous, not to mention highly distilled impudence of those who continually argue that the 2020 “election” – resulting in the installation of the most incompetent, America-hating and dangerous chief executive in the history of the Republic – was legitimate. It was not.

This week marks the formal debut of Dinesh D’Souza’s bombshell [documentary](#), “2000 Mules.” Your humble servant discussed the work back in February [here](#). It promises to be – as “45” would have observed – “YUuuge!”

It will prove, with unimpeachable video and geo-tracking evidence, that Democrat operatives and paid “mules” in five “swing states” corrupted the results of the 2020 general election in those states, and thus, in the Capitol on Jan. 6, 2021. And Democrats are sweating .50 caliber rounds.

Interestingly, as your humble servant was composing this offering, he searched for a link to the documentary trailer on Rumble.com..., only to find the message “This page has been blocked by Microsoft Edge.” Tell me again that the left – and Microsoft Edge – is not terrified that the documentary will decimate all claims that the 2020 election was “fair and secure.” I’ll wait.

If you value the future of the Republic; if you want to have a free nation for your children and grandchildren; and if you think the Goofball at 1600 – who cannot spell “Bob” backwards and cheers the meme “[Let’s Go Brandon](#)” – should be impeached and/or removed from office: watch “2000 Mules” when it becomes [available](#). If you cannot attend a theater, it will also be available [here](#). And consider buying the [DVD](#).

Then write your House member and send them this [link](#). Boom. Full stop.
