

# Revisiting a Prior Question

"DO IT NOW"

by [Joseph DeMaio](#), ©2022

(Apr. 24, 2022) — Soooo..., this offering presents – yet again – the question for all who “actually” voted for the Goofball at 1600: [Are you happy now?](#) The same question is also posed, rhetorically, to all of the “phantom,” “fake,” “actually dead” and “brain-dead” others who “elected” him, including some high officials on January 6, 2021: Are you *really* happy now? Seriously?

The people who in actuality voted for this addled and incompetent buffoon – who, BTW, [takes directions](#) from the Easter Bunny – must now either confess that (1) they are *giddy* over the destruction of virtually everything that once made America great, including the southern border of the nation, or (2) their participation in elevating this dangerous [clown](#) to the Oval Office was without question the *worst* voting decision they had ever made in their lifetime. No other options exist.

And for those who did not vote in the 2020 general election at all..., they should be ashamed, because their omission contributed to the catastrophe now demolishing the country.

From the completely avoidable debacle in [Afghanistan](#) to the murderous consequences of ignoring [immigration laws](#) to the crippling of the nation’s [energy independence](#) achieved under President Trump – to identify but a few – the Goof has been one catastrophe after another.

And guess what, Virginia: unless he is removed from office via [impeachment](#) or invocation of Section 4 of the [25<sup>th</sup> Amendment](#) – since it looks as if he [won’t resign](#) – we are in for another 2+ years of this..., and worse. Yikes.

*The New York Post* – founded in 1801 by one Alexander Hamilton – [noted](#) that Democrats “are in dreamland” if they think the Goof can run and again “win.” Memo to P&E readers: dreamland is where *really* bad nightmares happen and the Democrats apparently *love* really [bad nightmares](#). Oh, yeah..., and remember what Obama [said](#).

Memo to the [FHDP](#): do something. If you want to be remembered by historians as among the statesmen who saved the Republic, do it *now*.
