(Dec. 28, 2018) — The P&E Editor’s [post](#) of today exposes, once again, the senseless, bottomless and mendacious hypocrisy of the Left, the liberal politicians in California as well as in Congress. Ronil “Ron” Singh was a legal immigrant from Fiji who aspired to be a patriotic American. He succeeded, because in death, he will be remembered as an American law enforcement patriot who gave his life protecting the public from evil..., the very evil with which the Left, many Democrats and most certainly creatures like Chuck Schumer and Nancy Pelosi seek to further infect America.

Make no mistake, these people and politicians don’t care about law enforcement or public safety, a point underscored as recently as the morning that Ron Singh died at the hands of (let us not mince words here) a criminal [illegal alien](#).

Oakland mayor Libby Schaaf is but one disgusting example of another infection undermining America: politicians pushing for “sanctuary” cities and states, open borders and the elevation of the “rights” (thanks for nothing, ACLU) of criminal illegals over the actual rights and safety of the public. How many more Americans will need to die before the public – including in California – rise up and scream: ENOUGH!

Look for people like Chuck Schumer, Nancy Pelosi and Oakland Mayor Libby Schaaf, as well as a host of other leftists, to begin wearing gloves. The gloves, of course, will be deployed not because it is wintertime and cold, but because they will help to conceal the blood – real and figurative – that is on their hands.
