

The Ominous Mirage: Today's FBI

"THE REVELATIONS JUST KEEP COMING"

(May 22, 2023) — The [motto](#) of the Federal Bureau of Investigation (“FBI”) is: Fidelity, Bravery, Integrity. That motto, once true, is today in fundamental need of demolition and a total rebuild, as it now constitutes the spreading of disinformation. It is a mirage.

Indeed, it could even constitute a violation of the federal [False Statements Act](#), 18 U.S.C. § 1001 (a)(2). That statute forbids the knowing and willful making by, among others, federal employees or agencies of “any materially false, fictitious, or fraudulent statement or representation.”

With the exception of a few courageous FBI agency “whistleblowers” willing to expose the treacherous falsehoods of the motto, today’s FBI is characterized by none of its purported commendable labels. *None*. And the revelations just keep coming.

To begin with, as now revealed in the “[Durham Report](#),” the FBI was, and remains, infested with personnel who care more about following instructions from upper echelon superiors in order to shield their pensions – not unlike defendants bleating the “[Nuremberg Defense](#),” – by enforcing political agendas against “disfavored” political candidates than by adhering to not only the written “rule of law,” but as well to

immutable principles of personal character and integrity. This is the definition of agency rot and it is where Beltway bureaucratic roaches breed and thrive.

Next, we now [learn](#) that, on top of the Clinton-financed multi-year targeted pogrom to politically cripple candidate Donald Trump as well as elected President Trump, during 2020 and early 2021, the Foreign Intelligence Surveillance Act (“FISA”) Court found that the FBI conducted nearly 280,000 [illegal warrantless](#) searches on American citizens.

This is not integrity: this is knowing, willful, lawless corruption, all overseen by an unprincipled Attorney General – Merrick Garland – appointed by [Brandon](#) the Goof, and a Director of the FBI – Christopher Wray – untethered to anything even remotely resembling fidelity to the Constitution.

Senator Mitch McConnell has done a number of dumb things, but if he has done a single *smart* thing, he prevented Merrick Garland from becoming a justice on the Supreme Court. And if President Trump did anything *dumb*, it was appointing – then *retaining* – Christopher Wray to head the FBI. Yikes.

And remember, Virginia, that Brandon, A.G. Garland and FBI Director Wray, along with their fellow cockroaches in the Beltway – both in and outside “government” – are the folks who want you to perpetuate them in office after 2024 so that additional malevolence can be smeared over your head. And you’d better like it, or you might regret it, because the revelations from the Durham Report and now, the order of the FISA Court, paint an ominous picture.

The emerging image resembles the less benevolent features of the Soviet Union’s *Komitet gosudarstvennoy bezopasnosti*, or “Committee for State Security”: the “[KGB](#).” Worse, there are also some vague, subtle shadows of the Third Reich’s *Schutzstaffel* (the “Protection Squadron” or “SS”), *Sicherheitsdienst* (the “[Security Service](#)”) and *Geheime Staatspolizei* (the “Secret State Police” or the “[Gestapo](#)”).

Chillingly, the Wikipedia description of the SS organization includes this nugget (yes..., Virginia, open-source Internet entries must be closely analyzed and examined before being deployed...): “Additional subdivisions of the SS included the [Gestapo](#) and the [Sicherheitsdienst](#) (SD) organizations. They were tasked with the *detection of actual or potential enemies of the Nazi state, the neutralization of any opposition, policing the German people for their commitment to [Nazi ideology](#), and providing domestic and foreign intelligence.*” (Emphasis added)

Sound familiar? Maybe even disturbingly so?

Vote carefully in 2024. Very..., *very carefully*. And in addition, hope that the election is transparently fair, because as Soviet Union dictator Josef Stalin is [credited](#) with noting: “Those who cast the votes determine nothing; those who count the votes determine everything.”
