

The Shortest DeMaio P&E Post Ever

"GET RID OF THEM...PERMANENTLY"

by [Joseph DeMaio](#), ©2022

“...and seeing for the first time the lights of this capital city...it means those young Americans will find a city of hope in a land that is free...that another generation of Americans has protected and passed on lovingly, this place called America, this shining city on a hill...” Source: [C-Span](#)

(Jul. 25, 2022) — Most of your humble servant’s P&E offerings run for thousands of words. Not this one. Short and acidic: get rid of Democrats in positions of federal, state, county and municipal governmental authority. School boards and mainstream media propaganda outlets too. Top to bottom. Vote them out; recall them; impeach them; fire them; prosecute them..., without exception.

They have collaborated and conspired to destroy the “shining city on a hill” envisioned by President Reagan. And like political ghouls not yet satiated or satisfied with their predations thus far, they are now intent on mutilating its corpse.

Get rid of them..., all of them. Permanently. They have forever forfeited any claim of right or competence to inform or govern a free people.

Full stop.
