(Jul. 4, 2023) — Today, most Americans celebrate the Fourth of July, the 247th anniversary of the signing of the [Declaration of Independence](#). From that day forward, a brave group of people began the process of severing the ties that had previously bound them to Great Britain and to eventually establish the world’s most benevolent and successful constitutional republic in history..., [Elie Mystal](#)’s contrary rantings aside.

The term “most Americans celebrate” is used because many others are intent upon the devolution and ultimate destruction of that republic. Included among those in that category today, of course, are the radical Democrats – political “leaders” as well as garden-variety “voters” – who reject the rule of law and the legitimacy of the U.S. Supreme Court as the final arbiter of the Constitution.

Elie Mystal (<https://www.youtube.com/watch?v=Q3bFtviUbh0&t=125s>)

Their psychotic and occasionally unhinged reactions (*q.v.*, Elie Mystal) to decisions they don’t “like” – from the *Dobbs* decision overruling the “unconstitutional-from-day-one”

Roe v. Wade abortion aberration to the recent decisions eviscerating race-based “affirmative action” in college admissions and torching [Brandon](#)’s class warfare attempt to unilaterally forgive nearly one-half trillion dollars in “student” loan debt – are but a few examples of their..., let us call it what it is: juvenile stupidity. If they don’t “like” or “agree” with the decisions, there are two primary “get” options: “Get over it” or, if they are serious, “[Get out of Dodge](#).”

Included among those who should seriously consider getting out of Dodge, of course, is the Marionette-at-1600, Brandon himself. And by getting out of Dodge is meant that he should resign from office before his humiliating fall – no pun intended – from being the worst president in the history of the Republic to the undisputed worst father of a cocaine-addicted son gets worse. He gives new meaning to the word “enabler.”

Cocaine ([DEA.gov](#))

And as if the degenerate activities of “Pride” [*sic*] month on the [White House South Lawn](#) weren’t bad enough, it is now learned that last Sunday, Secret Service personnel found a bag of [cocaine](#) in the White House library..., the same room where Hunter Biden..., currently living at 1600..., was using his laptop..., no, no, Virginia..., [another laptop](#). Apparently the Secret Service did not even bother to fingerprint the baggie, as they knew to whom it belonged. So much for the ne’er-do-well’s “drug rehab” program.

Brandon needs to resign by sundown today and then get out of Dodge, aka Washington, D.C. We can fret over what to do about Kamala Harris later. Job one is to get the Goofball out of office so that the Republic can begin the formidable task of recovering from his cataclysmic first 30 months of addled “leadership.” When Obama said he was out to “fundamentally transform America...,” who could have known it would get this bad? Recall as well what Obama [said](#) about Brandon on the campaign trail in 2020: “Don’t underestimate Joe’s ability to #!%* things up.”

At bottom, the Goofball’s resignation by sundown today, the nation’s 247th anniversary, would be the best birthday gift the country received *ever*, exceeding even that of July 4, 1884, when in a ceremony held in Paris, France, that nation [gifted](#) to the United States the

Statue of Liberty. But since sundown today now approaches, how about sundown tomorrow?

Open memo to Brandon: give it some thought..., sit down in a comfortable chair..., maybe in the White House library, if Hunter's not using it... have Dr. Jill help you decide and as Spike Lee suggested: [do the right thing](#).

Respectfully..., not gonna hold my breath....
