

[Obama's Draft Registration Card Dated 1980 Likely Bogus](#)

Obama's 1980 Draft Registration Card is Likely Bogus. It was probably done in 2008 and then back dated to 1980 to cover up that he never registered for the Draft when he turned 18 and under the influence of the teachings of his communist friend and mentor, Franklin Marshall Davis. Obama was also hanging with far left Marxists and draft resisters at Occidental College in CA where he went after graduating from high school. Obama has been hiding his Occidental College records and those of Columbia and Harvard.

A retired ICE immigration agent, Mr. Stephen Coffman of Galveston TX, claims the draft registration records provided under a Freedom of Information Act request indicates the card was processed through the Chicago midwest regional office instead of the Denver west coast regional office. The Denver office would have been the office to process it if Obama signed the form in Hawaii where he lived where he palled around with the communist, Franklin Marshall Davis, or California while in college there palling around with student Marxist groups and draft resisters. If the alleged retroactive document creation fraud was perpetrated in the Chicago regional office this year (2008), I can certainly understand how this was facilitated, since Chicago is currently Obama's home turf and also for Obama's Saul Alinsky tactics trained, "the ends justifies the means", Chicago machine politics ACORN mafia "red shirts". They have clerical jobs everywhere in Chicago for local, state, and federal agencies.
