Natural born citizenship per the "no spin zone Goat" ☺

Some Boolean Algebra equations to help us.

This simple mathematical Boolean Algebra logic equation defines the issue and determines the truth or falsity of the claim to being a natural born citizen (NBC):

$(NBC) = A * B * C$

For Natural Born Citizenship (NBC) status to be valid, i.e., true, then A, B, and C must all be true.
True = 1
False = 0

A equals the U.S. citizenship of the father at time of child's birth, true or false, 1 or 0.
B equals the U.S. citizenship of the mother at time of child's birth, true or false, 1 or 0.
C equals was child born on U.S. soil at time of birth, true or false, 1 or 0.

$(NBC) = 0 * 1 * ? = 0$

Thus, Obama's (NBC) Boolean Algebra result equals zero because A=0. For zero multiplied
times any other term the result is always zero, i.e., his (NBC) status is logically always false.
Therefore, he is not a natural born citizen. It's a simple, logical, mathematical fact!
And it doesn't take Einstein to understand this. 😐

Obama knows this too. He and his supporters are just lying about it. And Congress and others are just ignoring it.

Maybe we should send this simple math exercise to the media, i.e., headline ... Mountain Publius Goat mathematically proves that Obama is not a natural born citizen and thus is not eligible to serve as President and CINC under our Constitution. 😐
