### **The "Chicken Little Presidency" of Obama & Perpetual Crisis**

It looks to me like we have a "**Chicken Little Presidency**" with Mr. Obama. Crisis, crisis, crisis, .... catastrophe, catastrophe, catastrophe, .... spend, spend, spend, .... **the sky is falling, the sky is falling, the sky is falling**. It's a good new name for him and his leadership style. Spread it far and wide on the blogs.

Is it a man out of control or a clever, deliberate strategy? I think the latter. And it has a political science name explained in the two links below. But I think the cartoon character moniker fits Obama's style of panic mode, the sky is falling, style of leadership to scare people into voting for what he wants ... to bankrupt our country into full socialism of the system, is a perfect visual description of what he is up to.

When will the country wake up. Not one nickel of this trillion dollar bill will flow into the economy the next day, the next week, or the next month. They have not even used the last \$350 billion of the TARP package. This is just one giant boon-dongle to bankrupt the taxpayer and the country over the next two years. And then after this trillion request, in 3 months they'll ask for another. And then another.
