### **The Government's Role in Creating the Financial Crisis**

Here is a very good video which explains the real cause of the housing bubble and the financial crisis we are in, i.e., the cause is the U.S. government itself doing social engineering in our banking and housing system for the last 30 years. It was not lack of regulation but over regulation of an industry, i.e., banking when they were ordered by government to make loans to high risk borrowers in the far left's agenda to achieve "economic justice" and "social justice". And the chickens have now come home to roost for the social engineering of Jimmy Carter, Barney Frank, Christopher Dodd, Schummer, Reid, Pelosi, the Clintons, and Obama over the last 20 years. So what is the answer of the culprits of Obama, Frank, and Dodd ... more spending and more money for ACORN and the organizations calling for pouring more money into more forced high risk lending and other community organization projects backed by ACORN and the re-distribution of wealth. Virtually every spending bill passed in the last year has money hidden in it for ACORN and its "economic justice" and "social justice" engineering projects. Google on the terms "economic justice" and "social justice" to learn more about it and who's behind it.

It is nothing less than governing by the "Munchausen by Proxy Syndrome" in politics, aka the "Cloward-Piven Strategy". Google on the "Cloward-Piven Strategy" and Obama and learn more about that too. You are witnessing Obama and the far left controlled Congress utilizing this political science taught strategy of the far-left in their talking and actions every day with an enabling media to destroy our American system and install full-fledged socialism which is the end game of the Cloward-Piven Strategy. Send this post and message to your elected representatives. Maybe one of them will wake up and call what is going on by its name, the Cloward-Piven Strategy's drum beat for the march to full-fledged socialism for America.

"The American people will never knowingly adopt Socialism. But under the name of liberalism they will adopt every fragment of the Socialist program, until one day America will be a Socialist nation without knowing how it happened." Norman Thomas
